No case of quarantinable disease occurred during the past week.

Report from Veracruz—Inspection and fumigation of vessels—Smallpox—Sanitary conditions.

Acting Assistant Surgeon Carter reports, October 11:

Week ended October 11.

Bills of health issued.....	9
Vessels inspected.....	3
Vessels fumigated.....	6
Passengers inspected.....	115
Members of crews inspected.....	371

The sanitary condition of Veracruz and vicinity remains fairly good. Three cases of smallpox with one death were reported during the week. These cases were all from interior points in the Republic and were isolated at once in the lazaretto. The usual precautions were taken. No sickness occurred on any of the vessels which cleared during the week for the United States during their stay in the harbor.

NETHERLANDS.

Report from the Hague—Cholera at Hansweert and Lopik.

The information is received through the Department of State, under date of October 2, that a third case of cholera has appeared in Hansweert, in the family of which two members are already suffering from the disease, and that a second case has appeared at Lopik, in the wife of the patient previously reported.

NICARAGUA.

Reports from Bluefields, fruit port—Stegomyia.

Acting Assistant Surgeon Layton reports:

Twelve days ended September 30 and October 12. Present officially estimated population, 2,500. General sanitary condition of this port and the surrounding country during the week, good.

Mosquitoes present in large numbers, chiefly *Stegomyia calopus*.
